

FreeEsVclComponents

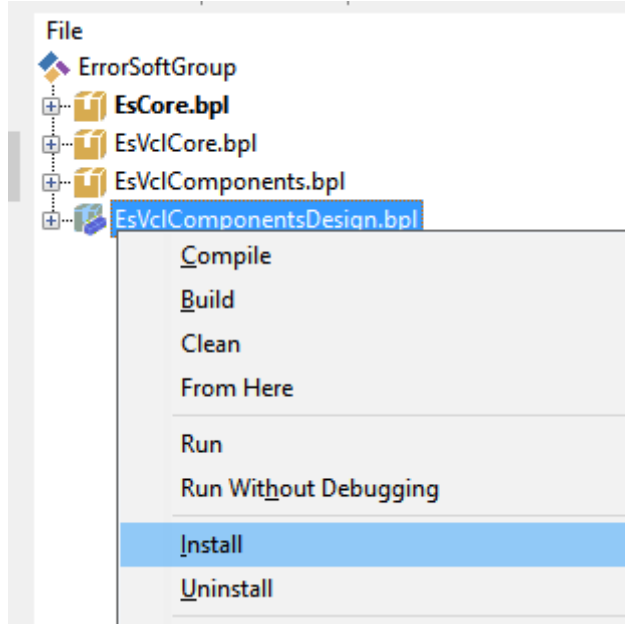

1. Add "Source" folder to library path
(Tools->Options->Delphi Options->Library->Library path):
For "Selected platform": "32-bit Windows" and "64-bit Windows"

2. Open Project Group "ErrorSoftGroup":
If you have plan to install the components to multiple versions of Delphi on computer(multiple installation),
then start the "Packages\PackagesGenerator.exe" and choose appropriate generated project files.
3. Click "Build All":

4. Select "EsVclComponentsDesign" and Click "Install"

5. Done!
